WORK EXPERIENCE

CoreProc, Inc.

2022 - Present

UI/UX Developer

Bonifacio Global City, Taguig

- Led migration of legacy web applications from Vue 2 to Vue 3 with Vite, improving build performance, browser compatibility, and developer experience.
- Built dynamic, SEO-friendly websites with Next.js and Nuxt.js, leveraging SSR and SSG to improve indexability and scalability.
- Developed responsive, mobile-first interfaces in TailwindCSS, Bootstrap, HTML, CSS/SASS, JavaScript, and TypeScript, with attention to cross-browser compatibility and Core Web Vitals.
- Integrated Laravel REST APIs with Vue.js frontends to deliver cohesive, data-driven applications with fluid user interactions.
- Designed intuitive user interfaces and interactive prototypes in Figma and Adobe XD; accelerated design-to-code workflows using Figma Make and Claude Code.
- Applied WCAG accessibility practices (semantic HTML, keyboard navigation, color contrast, ARIA) across delivered interfaces.
- Collaborated in Agile/Scrum teams via Jira, contributing to sprint planning, iterative delivery, and code review.
- Produced vector graphics, photo edits, and motion content using Adobe Creative Suite to support digital branding and product launches.
